Road Construction Projects:

Two road repair projects in the 200 and 300 blocks of Rose Valley Road were scheduled back-to-back this summer. The first project, to replace a retaining wall in the 300 block (MP 0.45 – 0.46), began July 5th and will be finished August 31st. **The second project, an embankment repair project in the 200 block (MP 0.21 – 0.34), is scheduled to begin Tuesday, September 4th.** The contractor estimates this project will be completed by the end of October. Similar to the retaining wall project, the embankment repair project will require the closure of the westbound lane near the beginning of Rose Valley Road. One lane will remain open and traffic will be alternated through the work zones via the use of an automated, portable traffic light system.

A road reconstruction project to rebuild a portion of Dike Road in Woodland is expected to begin in mid-September. Additional information will be released once the construction details are available.

Please use caution near construction zones and obey the directions of construction personnel and traffic control devices.

Paint striping, chip sealing, overlay paving, culvert replacements and road improvements are scheduled throughout the summer. For up-to-date information please call the Department of Public Works at (360) 577-3030, or visit our website at www.co.cowlitz.wa.us/publicworks, or the Cowlitz County Department of Public Works Facebook page.
