Road Construction Projects:

An embankment repair project in the 200 block of Rose Valley Road (MP 0.21 – 0.34), began Tuesday, September 4th. This project is expected to be completed by the end of October. The project will require the closure of the westbound lane near the beginning of Rose Valley Road. One lane will remain open and traffic will be alternated through the work zones via the use of an automated, portable traffic light system.

The Dike Road reconstruction project in Woodland is scheduled to begin Wednesday, September 12th. This project will require the temporary closure of approximately one mile of the Dike Road, south of Whalen Road, beginning Monday, September 17th. Access will be maintained for the three residents within the construction zone. This project is expected to be completed in mid-October.

Please use caution near construction zones and obey the directions of construction personnel and traffic control devices.

Paint striping, chip sealing, overlay paving, culvert replacements and road improvements are scheduled throughout the summer. For up-to-date information please call the Department of Public Works at (360) 577-3030, or visit our website at www.co.cowlitz.wa.us/publicworks, or the Cowlitz County Department of Public Works Facebook page.
