Bunker Hill Road Slide Repair Project (road closed October 21-25):

A slide repair project will require the closure of the 100 block of Bunker Hill Road (between Ocean Beach Hwy and Bunker Hill Place) from 7:00 AM to 5:00 PM daily, Monday, October 21 through Friday, October 25. A detour route using Abernathy Creek Road and West McAdams Road is available and will have signs. Cowlitz County road crews will be excavating soil, installing drainage and a rock buttress, and rebuilding the road.

Guardrail Repair & Replacement Project:

Steele Trucking Inc., under contract with Cowlitz County, will be installing and repairing guardrails throughout Cowlitz County for several weeks. Work is scheduled to begin in the rural Kalama area on Tuesday, October 22nd.

Delameter Road Reconstruction Project:

C & R Tractor and Landscaping, under contract with Cowlitz County, is placing structural fill along Delameter Road near Cline Road as part of the Delameter Road Reconstruction Project west of Castle Rock. This safety improvement project will replace culverts, widen the travel lanes and modify curves and slopes from milepost 0.90 to 2.33 (Cline Road to Melton Road).

Sauer Road Slide Repair Project:

Pile Contractors Inc., under contract with Cowlitz County, is continuing to install drilled piles for the new retaining wall as part of the Sauer Road Slide Repair Project (milepost 1.07 to 1.10) in rural Kalama.

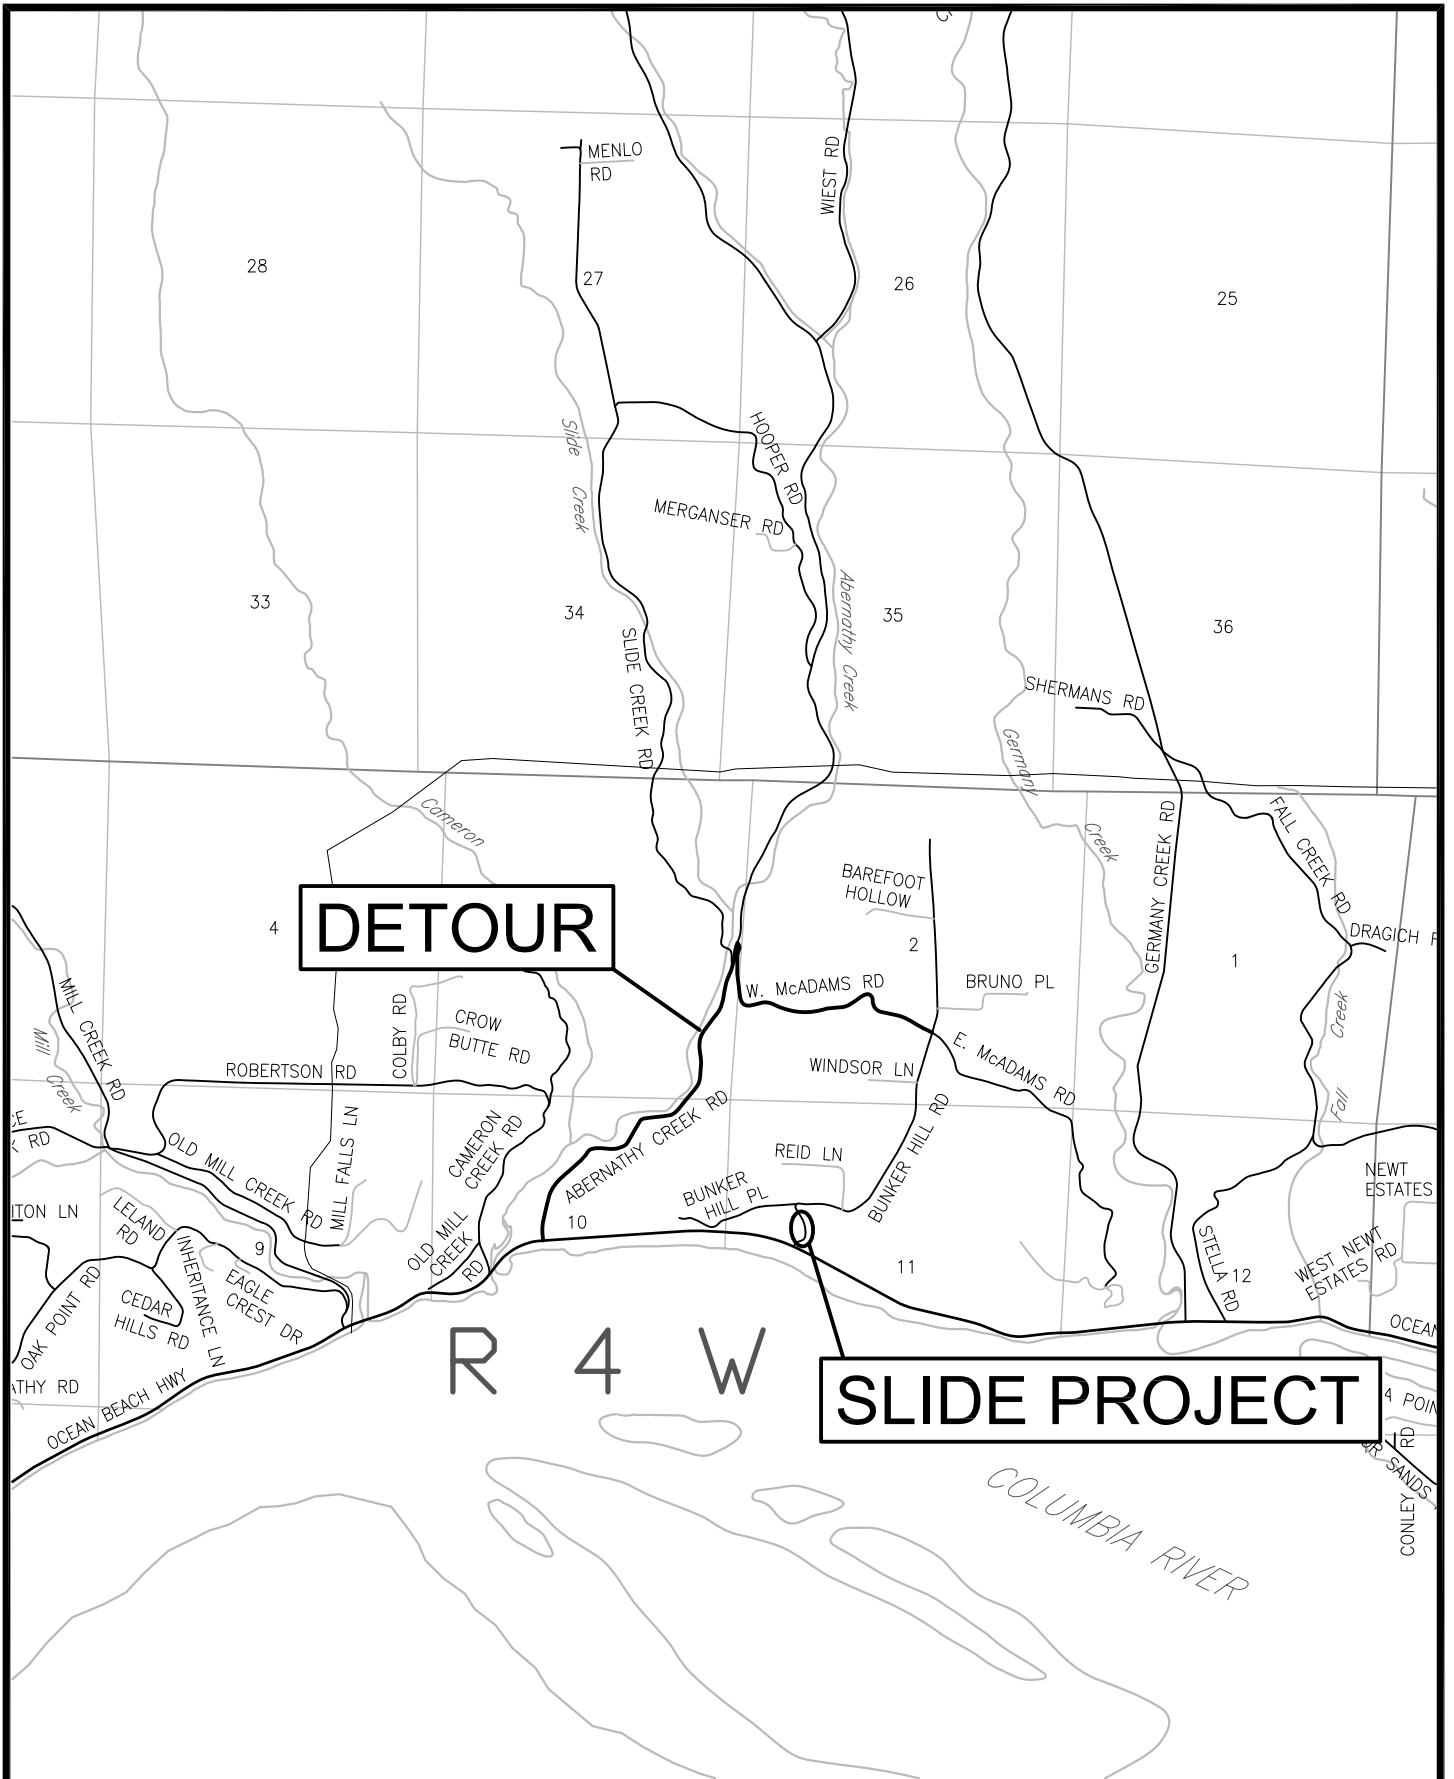

Ross Road Slide Repair Project:

Cowlitz County road crews are scheduled to install quarry spalls next week for the Ross Road Slide Repair Project (milepost 0.21 to 0.23). This repair project, near the unincorporated community of Carrolls, will construct a rock buttress to support and stabilize the roadway. One lane will remain open during the project for local access.

Please use caution near construction zones and obey the directions of construction personnel and traffic control devices. Road maintenance and construction projects are weather dependent. Heavy rain or freezing conditions can slow or postpone operations. Projected schedules are approximate.
