

**NEW, EXPANDING, OR EXISTING
GROUP B WATER SYSTEM**

The items or documents checked below are necessary for approval of all Group B Public Water Systems. State-certified laboratories must conduct all water quality tests. Fees will be charged for review and approval of this application as well as an annual water system certificate. **If this proposal is intended to gain approval for existing services and you do not propose to add any additional services, some of the following requirements may be waived. Contact the Cowlitz County Health Department for more specific information.**

CHECKLIST

- Water Right Permit for systems serving more than six (6) connections _____
- Well Site Inspection Report _____
- Completed Group B Workbook (Guideline for Group B Public Water System Approval) _____
- Vicinity Sketch _____
