## SCHOOL PROJECT SITE REVIEW CHECKLIST NEW CONSTRUCTION, REPLACEMENT, OR REMODEL

---

The School Health and Safety Program reviews proposed school sites to ensure it does not present any health concerns in accordance with WAC 246-366-030. Schools applying for state match funding (the D process) must certify they have consulted with us regarding our requirements as part of step D-5.

### The completed site review application materials must include:

- This checklist to illustrate the packet is complete.
- A completely filled out *SITE REVIEW APPLICATION* (page 2).
- A letter outlining any known potential hazards or health concerns that are applicable to the project including:
  - Vehicular concerns such as high use roads, airports or train tracks;
  - Underground Storage Tanks (USTs) or hazardous material storage;
  - Any natural hazards such as cliffs, wetlands, ponds or rivers;
  - Any manmade hazards such as landfills, septic systems and abandoned wells;
  - Neighboring businesses of concern such as: nail salons, crematorium, industry or factories;
  - FOR REMODELS: suspected lead, asbestos or radon.
- Phase 1 or 2 Environmental Site Assessment (if conducted)
- A site sound level survey unless waived by Cowlitz County Health Department.

NOTE: Site sound level surveys may be conducted by industrial hygienists or acoustical consultants. If requesting a waiver of the sound level survey, provide justification for this request:

- Payment of \$300 Site Review Fee for new schools or new locations for school.
