Building Permits –

International Building Code – Ch. 51-50 WAC

International Residential Code – Ch. 51-51 WAC

Building permit fees are to be assessed from Table A-1 based upon the building valuation. Cowlitz County will utilize the International Code Council's "Building Valuation Data" as published in the Building Safety Journal edition year 2017 with exceptions allowed as follows. For structures not specifically referenced in the valuation table, the building official is authorized to use the fair market value of the project as the basis for fee assessment. Building plan review fees are to be assessed as 65% of the building permit fee. The plan review fee will be collected when the building plans and applications are submitted. The building permit fee, and other associated fees, will be collected when the permit is issued.

Washington State Building Code Council fees collected for each Building Permit issued -

- Residential building permit: \$6.50 for each building permit, plus an additional surcharge of \$2.00 for each residential unit after the first unit.
- Commercial building permit: \$25.00 for each building permit, plus an additional surcharge of \$2.00 for each residential unit after the first unit.

Building permit defined:

- Residential building permit – means a building permit issued by the County to construct, enlarge, alter, repair, move, demolish, or change the occupancy of any building containing only dwelling units used for independent living of one or more persons including permanent provisions for living, sleeping, eating, cooking, and sanitation, and structures accessory to dwelling units such as detached garages and storage buildings.
- Commercial building permit – means a building permit issued by the County to construct, enlarge, alter, repair, move, demolish, or change the occupancy of any building not covered by a residential building permit.

Commercial Structures and Alterations –

Valuation: The greater of "Building Valuation Data" table or Fair Market Value.

Shell buildings and unfinished spaces shall be valued at no less than 80% of the above valuations.

Fees:

- Refer to Tab B-1

Mechanical Construction – International Mechanical Code - Ch. 51-52 WAC

A mechanical permit is required for all mechanical work regulated by the Washington State Building Code. For mechanical work associated with a building permit for One and Two-Family Dwellings, the building and mechanical permits may be combined and the mechanical permit fees added to the building permit; a separate mechanical permit is not required. The permit shall include allowance for two (2) inspections. Each additional inspection will be conducted at a rate of \$90.00.

Fees:

- Permits – Refer to Tab M-1 Minimum Fee = \$90.00.
- Plan Review – 50% of Permit Fee Exception – Permit combined with a building permit for One and Two-Family Dwelling.

Plumbing Construction – Uniform Plumbing Code - Ch. 51-56 WAC

A plumbing permit is required for all plumbing work regulated by the Washington State Building Code. For plumbing work associated with a building permit for One and Two-Family Dwellings, the building and plumbing permits may be combined and the plumbing permit fees added to the building permit; a separate plumbing permit is not required. The permit shall include allowance for two (2) inspections. Each additional inspection will be conducted at a rate of \$90.00.

Fees:

- Permits – Refer to Tab P-1 Minimum Fee = \$90.00.
- Plan Review – 50% of Permit Fee Exceptions – Permit combined with a building permit for One and Two-Family Dwellings, and water heater(s) installed in One and Two-Family Dwelling.

Fire Code – International Fire Code – Ch. 51-54A WAC

Operational Permits -

The fire code official is authorized to issue operational permits for the installations and activities enumerated in Sec 105.6. Permits shall be valid for a prescribed period of time or until renewed or revoked. Permits shall be renewed each year thereafter upon approval of the fire code official and payment of appropriate fees.

Fees:

- Recurring fee at interval not to exceed one (1) year from date of issuance. Refer to Tab F-1.
- Plan review fee to verify conditions of issuance. This fee is assessed at permit first issuance and is non-recurring unless the conditions of permit are changed. Refer to Tab F-1.

Construction Permits -

The fire code official is authorized to issue fire code construction permits for the work activities enumerated in Sec 105.7.

Fees:

- Fees for construction permits shall be assessed from Tab A-1 based upon the fair market value of the work. Plan review fees shall be calculated as 50% of the permit fee. Refer to Tab F-1.
