Applicant: *Chris Andrews*
1600 13th Avenue South
Kelso, WA 98626

Associated Permit Number(s): 0002950-001 (Planning Clearance) 0002950-003 (SEPA)

Project Address: 1736 South Cloverdale Road, Kalama

Parcel Number(s): WC2814002

Legal Description: 28-6N-1W

Impacted Critical Area(s) Type F (Riparian Fish-Bearing Stream), Wetlands, geologic hazard areas, and CARAs.

Mitigation Required: Yes, as outlined in the Critical Areas Report

Associated Water Body: Unnamed Type-F stream, Bybee Creek Type-F stream

Development Type: Culvert Replacement, road improvements.

Staff Reviewer: Travis Kephart, Assist. Environmental Planner

Issuance Date: January 20th, 2022

Project Description:

Applicant proposes to remove an existing undersized concrete culvert on an unnamed tributary to Schoolhouse Creek, and replacing it with an open-bottom three sided precast concrete culvert. Replace the existing undersized four-sided concrete box culvert on Bybee Creek and installing a new open-bottom steel arch culvert. Work will also include widening the alignment right-of-way to accommodate two 11-foot lanes and two 4-6 foot paved shoulders. Improving sight distance near the intersection of South Cloverdale Road and Confer Road by horizontal and vertical road realignment. Additional installing of a new precast concrete

block wall near the intersection with Todd Road. Installations of storm water dispersion features on either side of Bybee Creek to provide detention and management of storm water runoff.

Discussion:

The applicant submitted a Critical Areas Report prepared by WSP USA, dated March 2022, in support of this application. The assessment meets the requirements of CCC 19.15.130 (Fish and Wildlife Conservation Areas) for the proposed actions. Conclusions and recommendations of the assessment are relied upon for the review and approval of this project. In regards to the mapped wetlands, the ordinary high-water mark of the unnamed tributary and Bybee Creek was marked in the field with blue flagging. Ecological Land Services did not find wetlands in the study area. The riverine areas of unnamed creek and Bybee Creek were investigated and the OHWM was delineated in the field. The project will require authorization from WDFW in the form of Hydraulic Project Approval.

State Environmental Policy Act [SEPA] Review

In accordance with the Cowlitz County Code (CCC) Chapter 19.15.130 all fish and wildlife habitat conservation areas are required to comply with the State Environmental Policy Act per CC Chapter 19.11. Cowlitz County Issued a Determination of Non-Significance on June 6, 2022 with a 14-day comment period ending January 20, 2022. Comments were received from the Washington State Department of Ecology (ECY), WDFW, and a resident at 1741 South Cloverdale road . These comments were general in nature. Compliance with SEPA has been achieved.

Riparian Habitat Area: The applicant submitted a Critical Areas Report, and a Bank Use Plan both prepared by WSP USA dated December, 2021, in support of this application. The assessment meets the requirements of CC 19.15.130 and the conclusions and recommendations of the assessment are relied upon for the review and approval of this project. The assessment outlines mitigation techniques to minimize permanent impacts on the RHA. "Impacts of the RHA will be restored through the removal of asphalt and subgrade and the planting of native grass, shrubs, and trees in the old road location." Avoidance, minimization, and mitigation will achieve no net loss of habitat functions, as described in the bank use plan (see Table 7 & Table 8, WSP 2022) Based on the project specific conclusions and proposed mitigation, the critical areas review for the RHA impacts is complete.

Conclusion:

Based on the development recommendations and conclusions of the Critical Areas Report, and Bank Use Plan review for the proposed project is hereby approved, subject to the following conditions of approval:

Conditions of Approval:

- 1) Development associated with this project must follow the development recommendations, mitigation measures and conclusions contained in the "Critical Areas Report" prepared by WSP USA, dated March, 2022.
- 2) Development associated with this project must follow the development recommendations, mitigation measures and conclusions contained in the "Bank Use Plan" prepared by WSP USA, dated December, 2021

- 3) The permittee shall provide a copy of this critical areas permit, conditions, and drawings to all contractors performing any of the authorized work.
- 4) Representatives from this department shall be allowed to inspect the authorized activity at any time deemed necessary to ensure that the project is being, or has been, accomplished in accordance with the terms and conditions of this permit.
- 5) All disturbed soils shall be stabilized in a timely manner utilizing best management practices and excess cut/fill shall be disposed of at an approved offsite location.
- 6) The project will be constructed during the in-water work window specified by WDFW, which is July 16 to September 30 (revised 5/1/25 AT).
- 7) The permittee must contact the Building and Planning Department to discuss any substantive plan changes or project modifications prior to implementation.

Sincerely,

Travis Kephart

=====
Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at <https://www.dol.gov/agencies/whd/government-contracts>.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (iii)).

The body of each wage determination lists the classifications and wage rates that have been found to be prevailing for the type(s) of construction and geographic area covered by the wage determination. The classifications are listed in alphabetical order under rate identifiers indicating whether the particular rate is a union rate (current union negotiated rate), a survey rate, a weighted union average rate, a state adopted rate, or a supplemental classification rate.

Union Rate Identifiers

A four-letter identifier beginning with characters other than ""SU"", ""UAVG"", ?SA?, or ?SC? denotes that a union rate was prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2024. PLUM is an identifier of the union whose collectively bargained rate prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2024 in the example, is the effective date of the most current negotiated rate.

Union prevailing wage rates are updated to reflect all changes over time that are reported to WHD in the rates in the collective bargaining agreement (CBA) governing the classification.

Union Average Rate Identifiers

The UAVG identifier indicates that no single rate prevailed for those classifications, but that 100% of the data reported for the classifications reflected union rates. EXAMPLE: UAVG-OH-0010 01/01/2024. UAVG indicates that the rate is a weighted union average rate. OH indicates the State of Ohio. The next number, 0010 in the example, is an internal number used in producing the wage determination. The date, 01/01/2024 in the example, indicates the date the wage determination was updated to reflect the most current union average rate.

A UAVG rate will be updated once a year, usually in January, to reflect a weighted average of the current rates in the collective bargaining agreements on which the rate is based.

Survey Rate Identifiers

The ""SU"" identifier indicates that either a single non-union rate prevailed (as defined in 29 CFR 1.2) for this classification in the survey or that the rate was derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As a weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SUFL2022-007 6/27/2024. SU indicates the rate is a single non-union prevailing rate or a weighted average of survey data for that classification. FL indicates the State of Florida. 2022 is the year of the survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date,

6/27/2024 in the example, indicates the survey completion date for the classifications and rates under that identifier.

?SU? wage rates typically remain in effect until a new survey is conducted. However, the Wage and Hour Division (WHD) has the discretion to update such rates under 29 CFR 1.6(c)(1).

State Adopted Rate Identifiers

The ""SA"" identifier indicates that the classifications and prevailing wage rates set by a state (or local) government were adopted under 29 C.F.R 1.3(g)-(h). Example: SAME2023-007 01/03/2024. SA reflects that the rates are state adopted. ME refers to the State of Maine. 2023 is the year during which the state completed the survey on which the listed classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 01/03/2024 in the example, reflects the date on which the classifications and rates under the ?SA? identifier took effect under state law in the state from which the rates were adopted.

WAGE DETERMINATION APPEALS PROCESS

1) Has there been an initial decision in the matter? This can be:

- a) a survey underlying a wage determination
- b) an existing published wage determination
- c) an initial WHD letter setting forth a position on a wage determination matter
- d) an initial conformance (additional classification and rate) determination

On survey related matters, initial contact, including requests for summaries of surveys, should be directed to the WHD Branch of Wage Surveys. Requests can be submitted via email to davisbaconinfo@dol.gov or by mail to:

Branch of Wage Surveys
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

Regarding any other wage determination matter such as conformance decisions, requests for initial decisions should be directed to the WHD Branch of Construction Wage Determinations.

Requests can be submitted via email to BCWD-Office@dol.gov or by mail to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2) If an initial decision has been issued, then any interested party (those affected by the action) that disagrees with the decision can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Requests for review and reconsideration can be submitted via email to dba.reconsideration@dol.gov or by mail to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210.
